THE NINETY MINERS FOUND A SURE TOMB.

WATER IS RAPIDLY FLOWING INTO THE TWIN SHAFT—CHANCES OF RECOVERING THE BODIES ARE MORE REMOTE THAN EVER—DAMAGE TO THE MINE.

BY ASSOCIATED PRESS WIRE

WILKESBARRE (Pa.) June 29.—The excitement at Twin Shaft in Pittston, where nearly one hundred miners entombed, continues today. At the mouth of the shaft, besides the wives and children of the entombed men, there are hundreds of persons, not residents of Pittston alone, but visitors from Scranton and Wilkesbarre. The wives and children stand near the opening to the death chamber, urging the rescuers to greater efforts.

Practically nothing has been accomplished toward the recovery of the men. There is scarcely an old miner about the opening of the mine who does not believe the men are all dead. The rescuing party which went into the mine at 1 o'clock, came out at 7 o'clock. The formation of a party to go in again is on as rapidly as possible. The work is necessarily slow, owing to the danger of falling rocks loosened by the explosion.

If the slope is not completely choked with debris the rescuers may possibly be able to reach the men within twenty-four hours, otherwise it may be two or three days. The rescuing party is 2000 feet from where the cave-in occurred. Gas continues to accumulate, and the roof, which was weakened by the explosion, is in danger of falling at any moment. A survey of the interior of the mine this morning shows the main slope is blocked across and officials are willing to admit. Fully six feet that had been cleared up yesterday afternoon is blocked by another fall that occurred before 4 o'clock this morning.

Fires Boss Johns said: "It is my belief that the air current in Twin Shaft was shut off the moment the cave-in occurred. Then, if the men were not killed by falling rock and coal, they may have lived some minutes before being overcome by smoke. Dr. John Weston, who was with the rescuing party, said the men were entombed in a space of about 2000 feet. The gas was left clear, the gas may have accumulated and exploded, which would, of course, have burned the men to death. It is not likely that it will be known how the men died until the bodies are found."

The damage to the mine is estimated at \$35,000, and the expense of getting the bodies out may reach \$20,000. The company is censured for sending men into the mine when it was in danger of explosion. It is believed it was afraid the company either had to do it, or close the mine, which would have meant a loss of all capital invested.

Water has been pouring into the slope and threatening to drive out the rescuers. It is thought to be surface water and will soon cease to flow. Others think the water comes from the Susquehanna River. If it is river water, the hole will be flooded in a short time and it will be months before the bodies can be got out.

got seated for lunch, a representative delegation from Columbus, 225 in number, called. Ex-Gov. McKinley responded to a presentation by Atty. Gen. D. K. Watson:

"You have done me great honor, which I highly appreciate by the call you have made upon me today. I remember with pleasure the four years I spent in the capital city. I felt through all those years that there was not a moment of time that I did not have the sympathy and the support and the good-will and the encouragement of the men of Columbus irrespective of political affiliations, and I recall no four years of my public life that were more agreeable to me and that have left more precious memories which I shall cherish for ever than the years I spent among them."

"I thank you, Congressman Watson, for the gracious words you have spoken personal to myself. I do believe in my country, and I believe it is entirely with us what shall be the possibilities of the future for the government of the United States, and I am sure that the people of this country, from ocean to ocean, will stand by those principles and those policies that will secure to the people of the United States the greatest prosperity and the highest destiny."

Continuing, the ex-Governor said: "We have present with us, and it gives me the greatest pleasure to present to you one of the Notification Committee from the National Republican Convention. The first gentleman I desire to present is the illustrious citizen of Nebraska, United States Senator Thurston."

THURSTON'S HAPPY HIT.

In reply, to calls from the thousands assembled, Senator Thurston appeared and said from the steps of Gov. McKinley's house:

"Four years ago the Democratic party said to the American people, 'Give us free trade and the prosperity of this country will be assured.' You voted for free trade and prosperity receded. They said 'Give us free trade, and new industries and factories will open,' but they closed. They said: 'Give us free trade, and there will be increased employment for Americans,' but there was increased idleness instead. They said: 'Give us free trade, and wages will rise,' but they failed to rise. They said: 'Give us free trade and business will boom,' but it 'busted.' (Laughter and applause.)

"Today, in the light of their past experience, it is absolutely necessary to abandon their old position and they now say, 'Give us free silver, and all these glorious results will follow.' Don't you think that the light of their past repudiation and bankruptcy, you had better have a little collateral security before you accept their new promise of American prosperity?" (Loud Applause.)

EX-SENATOR HISCOOK.

Ex-Gov. McKinley then introduced ex-Senator Frank Hiscock of Syracuse, in these words: "My fellow-citizens, it gives me very great pleasure to present to you a representative from the great Empire State of New York, Senator Hiscock."

Hiscook responded:

"Fellow Gentlemen: You are here today to meet the friends and neighbors of Gov. McKinley, the candidate of the Republican party for the Presidency. Your hearts are overflowing with love to him. You indorse him, approve him, and most heartily indorse the principles for which he so long labored and which are now the platform of the Republican party. I am here from the State of New York, representing that State as a member of the Notification Committee to notify him of his nomination, and I say to you that he is as dear to the hearts of the people of the State of New York as he is to yourselves. I proclaim to you, without fear of contradiction, that he is as much approved by the Republicans of the State of New York and by the judges and by one-half of the Democratic party of the State of New York as he is by you." (Laughter and applause.)

"This year we had a superabundance of candidates for the Presidency, men presented as statesmen of the highest merit. Thomas Reed is a great man. (Applause.) New York presented the name of that grand Governor of our State, who was elected by 156,000 majority. Iowa presented the name of Amos A. Thurston. (Applause.) Ohio presented the name of McKinley." (Wells and Applause.)

Hiscook claimed in proportion to population as well as in fact, New York would give a larger majority for McKinley next fall than Ohio.

MAINE'S REPRESENTATIVE.

Charles E. Townsend, the representative of Maine, replying to a call, said: "Unfortunately for me, Maine is poorly represented, but it represents the business interests of the country. I came from the State of Maine, which had a favorite son that we thought this convention ought to honor, but when we came to this convention, we found that McKinley was the people's choice. (Loud cheers.)

"Maine has always been loyal to the Republicans, and to the nominee, and I can say to you, in November we will give the nominee the largest majority that any President has ever received from our State."

EDITORIAL FLIGHT.

Editorialist, Theodore Flood editor of the *Chautauqua Magazine*, said: "What State in the Union could stand up as the chief apostle of protection doctrine if not the State of Pennsylvania? And she will do it in November. No State in the Union will stand by and stand by with more votes than the State of Pennsylvania in November." (Loud Applause.)

ONE FROM VIRGINIA.

Senator Brownings of Virginia, was then called out, and remarked: "I wish to say that I had a State in which all of our residents have been dead for some time. (Laughter and applause.) But we have the satisfaction of knowing that the great who are gone, at some time, other live in Virginia. I wanted to connect the old State with Maj. McKinley, but failing in that I have located Mr. Hanna in Virginia. (Laughter.) These gentlemen who come to you from these Republican States do not have the fun that we have in Virginia. We are happy there this evening and tomorrow it is gone as the frost before the sun. (Laughter.) I thank you for your attention, and I say this for Virginia, that the State, under the sound money platform, will return to the ranks of the Republicans."

TEMPORARY CHAIRMAN FAIRBANKS.

Temporary chairman of the St. Louis convention, C. W. Fairbanks of Indiana, answering a call, remarked: "There was some question when the great convention met at St. Louis in the minds of some as to what would be the declaration of our party faith. There were some who were afraid the Republican party would straddle. I was one on that point, for the Republican party never did straddle upon all its splendid career. In the old days of Abraham Lincoln the Republican party did not straddle upon the supreme question of slavery, and when the war came the Republican party did not divide nor straddle, but spoke with unanimous unity. All the great questions before the people, the great questions of the Republican party never straddled, and it did not straddle at St. Louis. (Loud cheers.)

ANOTHER SOUTHERN TRIBUTE.

Col. Remmello of Arkansas made response: "We have had today speakers from the great States of our country, and they have told you of what they are going to do, and of their loyalty and the majorities that they are going to roll up. We have here today our tribute of love, loyalty and devotion to that magnificent standard-bearer of the Republican party, William McKinley. We are going to carry the State of Kentucky, the State of Tennessee, and the State of Louisiana, where the Governor and the courage to go down and speak of the great industries of Louisiana."

IOWA'S ALL RIGHT.

Hon. Calvin Manning of Ottumwa, Iowa, came up smiling to remark: "You will pardon me if I prefare my remarks by saying that in all that is good Iowa affords the best. Speaking of Iowa, you well know that town is Republican and we never had a Democrat in it since we are dry. (Applause.) We propose to make the vote of Iowa a clean 100,000 plurality for McKinley and prosperity."

VERMONT WILL BE THERE.

Judge Hughes of Vermont said: "All that has been said in promises by New York, Pennsylvania and Ohio I hope will be fulfilled by performances. Vermont needs to make no promises to the Republicans, for the nation that she represents gives a greater majority, according to her population, than any other State in the United States can give. (Applause.) The time has come to return to the kind of legislation that McKinley advocated, and he has made and executed by him, and Vermont will be there in electing him."

FROM WASHINGTON STATE.

Delegate-at-large Henry L. Wilson of Washington State, brother of Senator Wilson said: "I am not the author of the Wilson Bill. The Republicans of the United States, assembled in one magnificent parliament, are greater in their wisdom than the Republicans of any one section of the country. The Republican party stands for other things than the money question. With all the other great questions and with a candidate who is not only the exponent of the platform upon which he stands, but is the living embodiment of Republican progress and patriotism, there will be no question about the State of Washington." (Applause.)

MASSACHUSETTS LOYAL.

Hon. Martin Van Buren Jefferson of Massachusetts said: "The time is drawing to a close and I only wish to say one word for Massachusetts. It is well known that Massachusetts had a New England son whom they went to St. Louis to nominate for the candidate of the Republican party. She was clearly told to that she would carry the State of Massachusetts McKinley next November will carry 100,000 majority. We are all united, and we love William McKinley. He has all the qualifications that Massachusetts needs and by those qualifications I have said. Massachusetts McKinley will carry every State this side of the Mississippi. I thank you, gentlemen for the opportunity."

Capt. Jack Crawford of New Mexico gave a poem, and then in reply to repeated calls, National Republican delegate from New Mexico, responded and said: "I am glad to meet you all especially the ladies. (Loud cheers and laughter.) I have listened to the distinguished gentlemen who have addressed you with much interest and bear in mind the promises they have given us. We will see that they perform their promise. We only have time left to take the pictures of the Notification Committee, so I hope the audience will excuse me."

The party was then photographed and they left for Cleveland.

THE NOTIFICATION PARTY.

CLEVELAND, June 29.—The committee appointed at the St. Louis convention to notify ex-Gov. McKinley of his nomination for the Presidency assembled at the Hotel Hotel at 12:30 o'clock today. After being photographed in a group, the committee headed by Senator Thurston and M. A. Hanna, marched to the Valley Railroad station where a special train was bound for Cleveland. Prominent citizens accompanied the committee, and the party on the train was as follows:

W. W. Airlie, Maryland; C. D. Alexander, Alabama; C. H. Deers, Illinois; H. B. Biddle, Indiana; W. H. Barnes, Nevada; J. M. Clegg, New Orleans; James W. Brock, Montana; S. E. Browning, Virginia; W. D. Frazee, Mississippi; M. B. Jefferson, Massachusetts; U. T. Lynch, West Virginia; C. G. Manning, Iowa; J. P. McCarr, New York; J. J. O'Brien, Michigan; George A. Sykes, Connecticut; Henry H. Smith, Washington; D. C.; W. A. Sawyer, New Hampshire; C. E. Townsend, Pennsylvania; Joseph F. Trowbridge, Connecticut; Charles Hilton, Oregon; S. Johnson, Alaska; Robert Maxwell, New York; N. G. Nickerson, Wyoming; M. C. Ring, Wisconsin; J. C. Sanborn, Florida; W. W. Wilson, Washington; Gen. McAlpin and A. B. Humphreys of New York; Hon. M. A. Hanna and Sylvester T. Everett, Cleveland.

Joe Jefferson's Granddaughter Weds.

PEZZARD'S BAY (Mass.) June 29.—Aldred Fowers, who had the spreading canopy of a large maple covering the most prominent and beautiful elevation of land on the shore of Butterfield Bay, Miss. Josephine, daughter of Charles B. Jefferson, and grand-daughter of Joseph Jefferson, the actor, and Charles R. Rolfe, son of William Rolfe, were married today. There were about sixty guests, including Joseph Jefferson and Mrs. Cleveland.

Going to Africa.

LONDON, June 29.—As a result of today's Cabinet meeting, the Second Battalion of King's Royal Rifles, now at Malta, has been ordered to the Cape of Good Hope.

Tupper to Resign.

OTTAWA (Ont.) June 29.—Sir Charles Tupper will likely resign before the end of the week. Meanwhile Premier Laurier is preparing to form a strong administration.

The Chinese Election.

VALPARAISO (Chile) June 29.—The result of the Presidential election is 145 votes for Frederik Errazuriz and 134 for Vicente Beyres.

diana, answering a call, remarked: "There was some question when the great convention met at St. Louis in the minds of some as to what would be the declaration of our party faith. There were some who were afraid the Republican party would straddle. I was one on that point, for the Republican party never did straddle upon all its splendid career. VERMONT WILL BE THERE.

Judge Hughes of Vermont said: "All that has been said in promises by New York, Pennsylvania and Ohio I hope will be fulfilled by performances. Vermont needs to make no promises to the Republicans, for the nation that she represents gives a greater majority, according to her population, than any other State in the United States can give. (Applause.) The time has come to return to the kind of legislation that McKinley advocated, and he has made and executed by him, and Vermont will be there in electing him."

FROM WASHINGTON STATE.

Delegate-at-large Henry L. Wilson of Washington State, brother of Senator Wilson said: "I am not the author of the Wilson Bill. The Republicans of the United States, assembled in one magnificent parliament, are greater in their wisdom than the Republicans of any one section of the country. The Republican party stands for other things than the money question. With all the other great questions and with a candidate who is not only the exponent of the platform upon which he stands, but is the living embodiment of Republican progress and patriotism, there will be no question about the State of Washington." (Applause.)

MASSACHUSETTS LOYAL.

Hon. Martin Van Buren Jefferson of Massachusetts said: "The time is drawing to a close and I only wish to say one word for Massachusetts. It is well known that Massachusetts had a New England son whom they went to St. Louis to nominate for the candidate of the Republican party. She was clearly told to that she would carry the State of Massachusetts McKinley next November will carry 100,000 majority. We are all united, and we love William McKinley. He has all the qualifications that Massachusetts needs and by those qualifications I have said. Massachusetts McKinley will carry every State this side of the Mississippi. I thank you, gentlemen for the opportunity."

Capt. Jack Crawford of New Mexico gave a poem, and then in reply to repeated calls, National Republican delegate from New Mexico, responded and said: "I am glad to meet you all especially the ladies. (Loud cheers and laughter.) I have listened to the distinguished gentlemen who have addressed you with much interest and bear in mind the promises they have given us. We will see that they perform their promise. We only have time left to take the pictures of the Notification Committee, so I hope the audience will excuse me."

The party was then photographed and they left for Cleveland.

THE NOTIFICATION PARTY.

CLEVELAND, June 29.—The committee appointed at the St. Louis convention to notify ex-Gov. McKinley of his nomination for the Presidency assembled at the Hotel Hotel at 12:30 o'clock today. After being photographed in a group, the committee headed by Senator Thurston and M. A. Hanna, marched to the Valley Railroad station where a special train was bound for Cleveland. Prominent citizens accompanied the committee, and the party on the train was as follows:

W. W. Airlie, Maryland; C. D. Alexander, Alabama; C. H. Deers, Illinois; H. B. Biddle, Indiana; W. H. Barnes, Nevada; J. M. Clegg, New Orleans; James W. Brock, Montana; S. E. Browning, Virginia; W. D. Frazee, Mississippi; M. B. Jefferson, Massachusetts; U. T. Lynch, West Virginia; C. G. Manning, Iowa; J. P. McCarr, New York; J. J. O'Brien, Michigan; George A. Sykes, Connecticut; Henry H. Smith, Washington; D. C.; W. A. Sawyer, New Hampshire; C. E. Townsend, Pennsylvania; Joseph F. Trowbridge, Connecticut; Charles Hilton, Oregon; S. Johnson, Alaska; Robert Maxwell, New York; N. G. Nickerson, Wyoming; M. C. Ring, Wisconsin; J. C. Sanborn, Florida; W. W. Wilson, Washington; Gen. McAlpin and A. B. Humphreys of New York; Hon. M. A. Hanna and Sylvester T. Everett, Cleveland.

Joe Jefferson's Granddaughter Weds.

PEZZARD'S BAY (Mass.) June 29.—Aldred Fowers, who had the spreading canopy of a large maple covering the most prominent and beautiful elevation of land on the shore of Butterfield Bay, Miss. Josephine, daughter of Charles B. Jefferson, and grand-daughter of Joseph Jefferson, the actor, and Charles R. Rolfe, son of William Rolfe, were married today. There were about sixty guests, including Joseph Jefferson and Mrs. Cleveland.

Going to Africa.

LONDON, June 29.—As a result of today's Cabinet meeting, the Second Battalion of King's Royal Rifles, now at Malta, has been ordered to the Cape of Good Hope.

Tupper to Resign.

OTTAWA (Ont.) June 29.—Sir Charles Tupper will likely resign before the end of the week. Meanwhile Premier Laurier is preparing to form a strong administration.

The Chinese Election.

VALPARAISO (Chile) June 29.—The result of the Presidential election is 145 votes for Frederik Errazuriz and 134 for Vicente Beyres.

WHEEL WITHIN THEIR WHEELS.

The Work of Silver Democrats.

Bimetallic National Committee Meets Today.

Ex-Gov. Boies Replies to the Whiney Declaration—Senator Cockrell is for Bland on a White metal Plank.

(By ASSOCIATED PRESS WIRE)

CHICAGO, June 29.—The leaders of the Democratic silver forces in the various States are beginning to gather, preparatory to their meeting, which will be in the Sherman House in this city tomorrow under the auspices of the bimetallic Democratic National Committee. The meeting is not to be of as general a character as has been supposed. It will be, in a large measure, of representatives of the Bimetallic Committee, which was organized in Washington last August, and there will also be present other leading silver Democrats, to whom invitations have been especially extended: those of the Bimetallic party and of those supported by them.

Alabama—John W. Tompkins.

Arkansas—Carroll Armstrong.

Colorado—C. S. Thomas.

Florida—Frank G. Harris.

Georgia—Patrick Walsh.

in the Province.

Weather and Crops—Monterey Flag
Day a Legal Holiday—Bill Brinkley
Arrested for Blowing Up His
Wife—Si Lovern Sentenced.

BY THE TIMES' SPECIAL WIRE.

VANCOUVER (B. C.) June 29.—Nearly everyone has heard of the late Senator Fair of San Francisco and of the contests which have been going on since his death in regard to the distribution of his property. Not so many, perhaps, are aware that while he was still a privileged wills of the deceased multi-millionaire have been presented for probate; his genuine will is in Victoria, B. C., in the possession of Chief Justice Davie.

This will was drawn four years ago by Davie, who was then Attorney-General, when the late Senator came to Victoria four years ago for the purpose of having his will drawn by a man perfectly competent and at the same time so far removed from the influence of interested parties as to be without possible personal interest in the matter. It was necessary for him to be domiciled in the province in order to affect the will. \$500 worth of property from Henry Croft and also purchased \$1000 worth of stock in the Victoria Tramway Company.

When the courts are through showing the invalidity of the numerous wills now to the front in San Francisco the will now in Davie's possession will be brought forward.

CIVIL ENGINEERS.

Twenty-Eighth Annual Meeting of
the American Society.

(BY ASSOCIATED PRESS WIRE)

SAN FRANCISCO, June 29.—The twenty-eighth annual convention of the American Society of Civil Engineers was called to order today in the Academy of Sciences building. Col. George E. Gray delivered a short address of welcome. Col. George M. Mendell presided.

Among the visiting members who registered were the following: Orlon, Olaf R. Pihl, Portland; A. S. Ritter, Portland; G. H. H. H. Stevens, Washington; A. M. L. Hawks, Tacoma; J. N. Donovan, Fair Haven, Nevada; L. H. Taylor, Reno; Utah; C. K. Bannister, Ogden, California; Fred Eaton, E. T. Wright and J. D. Schuyler of Los Angeles; F. E. Trask of Ontario; James J. Hill, of Redwood City; James M. Quinn, of C. C. Erie, Lake Erie; Bakersfield; Louis G. Hare, Salinas; C. E. Moore, Santa Clara; George M. Dodge, San Rafael; Herman Kover, University of California; W. A. Hill, Merced; Frank J. Masson, Marysville; Charles D. Marc, Chico; B. Wink, L. M. Hoskins, G. C. L. Fish and George W. Gibson, Stanford University; Edward F. Haas, Stockton; J. C. McClure, Los Angeles; D. M. Wellman, Los Gatos; George S. Dillman, Alameda; W. S. Palmer, T. W. Morrison, San Jose and C. W. Brown, Oakland; Canada; Charles E. Goad, Ontario.

The secretary, Charles Warren Hunt of New York, read a paper on the flow of water in wrought and cast-iron pipes from twenty-eight to forty-two inches in diameter, and on the cost. A paper on the construction of a light mountain railway in the Republic of Colombia, by E. J. Chibas, drew some discussion by E. Sherman Gould and Jose Villadon.

The improvement of the entrance to a bar harbor by a single lift formed the subject of a paper by T. W. Symons, in which he treated of the work to be done at Gray Harbor, Washington. The writer concluded that the single lift system was in some places as effective as the double system. The cost of the proposed work was estimated at \$1,000,000 as compared with \$2,500,000 for the double system. The paper was discussed by Joseph Knapp and J. M. Prince.

An announcement was made extending the hours of the two-story hotel so as to spend Saturday in inspecting the electric power and light plant at Folsom on the American River, and examining the car shops at Sacramento.

DOPED AND SHIPPED HOME.

Kidder and Thomas Want Pay—The
Monterey Holiday.

(BY ASSOCIATED PRESS WIRE)

SACRAMENTO, June 29.—There was a short meeting of the State Board of Examiners today at which an opinion from the Attorney-General was read to the effect that John F. Kidder, débris commissioner, and R. I. Thomas, the secretary of the débris commission, were not entitled to pay for the time they had served prior to the third of the month. The opinion was based on the fact that the State appropriation did not begin to run until after the national appropriation was made. The amount which Kidder claims to be due him is \$1000 and Thomas claims \$750. Both men will carry the matter into court.

A message was received from Gov. Budd declaring a week from Tuesday to be a legal holiday to celebrate the fiftieth anniversary of the raising of the American flag at Monterey.

WEATHER AND CROPS.

Climatic Conditions for the Past
Week Were Generally Favorable.

(BY ASSOCIATED PRESS WIRE)

SACRAMENTO, June 29.—The following synopsis of the weather and crop conditions during the week ending June 29, is issued by the State Agriculture Society in cooperation with the United States Crop and Climate Service.

The average temperatures for the week ending Monday, June 29, were as follows: Eureka 54, Fresno 52, Los Angeles 68, Red Bluff 53, Sacramento 72, San Francisco 55, San Diego 64. As compared with the normal temperatures there was an excess of heat at Fresno of 10 deg., Sacramento 9 deg., and San Diego 2 deg.

There was no precipitation, which is about the normal condition of the crop-producing portion of the State. Oranges are reported to be still dropping, and grapes in Sonoma county are

reported to be dropping so badly that they may be a total failure in some of the vineyards which were visited by the heavy frosts and damp, cool weather during the early part of the present season. Some harvests are proving to be satisfactory, however, and the wheat harvest will soon be in full blast. Some wheat is reported damaged by shrinkage, from several points both in the Sacramento and San Joaquin Valleys caused by the hot, northerly winds of the late fall. Hops are rapidly improving, and the honey prospects are much better than they were several weeks ago. Beans and corn are doing exceedingly well, in fact, the climatic features of the week have been very beneficial to all agricultural interests as far as the ripening of grain and fruits. Fruits are coming into market quite freely, and are being shipped to the Eastern cities in trainload lots and by express in smaller quantities.

TESTIMONY AGAINST "LUCKY."

Anderson Says Baldwin Wanted to
Incriminate Another Man.

(BY ASSOCIATED PRESS WIRE)

SAN FRANCISCO, June 29.—Although Judge Slack expressly stated upon adjourning at the close of Saturday's session that he had only three days more to devote to the Ashley-Baldwin case, two-thirds of today's session were consumed by a court upon both sides of extensive arguments over the technicalities. The defense closed its case, and the first of the plaintiff's witnesses on rebuttal was examined. Carter, the witness who was said to have told Miss Ashley that Baldwin had "fixed" the Judge and the defense, also appeared, and, after denying the statements with which he was accussed, was allowed to return home.

The much-talked-of witness, Andrew H. Anderson, was called by the defense. He stated that he spoke to the both of the Baldwin brothers for up to 15 years in his shirt sleeves. Witness stated that he told Baldwin he had had so much trouble that he ought to take a receipt-book along on these excursions.

Anderson, in a statement made in April 1894, had another conversation with Baldwin at the Santa Anita ranch about Miss Ashley, to the effect that he wanted witness's assistance in laying his trouble upon Flavey. The cross-examination of the witness Anderson closed the remainder of the day's session, the case going over until tomorrow morning at 11 o'clock.

BILL BRINKLEY'S BLAST.

A Miner Accused of Blowing Up His
Wife.

(BY ASSOCIATED PRESS WIRE)

PREScott (Ariz.) June 29.—Bill Brinkley, a miner employed in the Last Chance mine, was arrested last night charged with exploding giant powder which wrecked the Cabinet room. Brinkley's wife was in the dining-room when the explosion occurred, the powder being placed immediately under this portion of the building. It is alleged that he has made frequent threats against her, saying he would blow her up.

The officers state that he has told conflicting stories since the arrest. He was at the Last Chance mine on Saturday and it is stated he was in a room where giant powder was stored and had a five-pound box of it. The both women in the dining-room were not instantly killed is attributed to the fact that the floor was covered with linoleum, which acted as a cushion to the force of the explosion. A space of three or four feet between the floor and the ground saved the building from becoming a total wreck. A Chinese waiter who had just served the woman with the powder resolved the heaviest of the consciousness and his injuries are considered serious.

NOT ENOUGH STEAMERS

To Carry Away People Who Want to
Leave Alaska.

(BY ASSOCIATED PRESS WIRE)

TACOMA, June 29.—William Hutchison returned today from Cook Inlet, Alaska, where he spent two months. He came down on the schooner Norma, which left Kodiak, June 16, with twenty-three passengers, all she could carry, though ninety wanted to come. Hutchison says there are 1470 people on Six-Mile Creek and about 750 of them are in mining camps. A space of three or four feet between the floor and the ground saved the building from becoming a total wreck. A Chinese waiter who had just served the woman with the powder resolved the heaviest of the consciousness and his injuries are considered serious.

YOUNG PLUMBER'S SUICIDE.

PREScott (Ariz.) June 29.—Albert Hicks, a plumber, committed suicide Sunday afternoon by swallowing carbolic acid. The young man was not of strong constitution and melancholia caused by the recent death of his mother is supposed to have been the cause of the act.

SUPERINTENDENT OF FRESNO SCHOOLS.

FRESNO, June 29.—Prof. C. W. Roby of Portland, Or., has been selected as superintendent of the city schools. Prof. Roby was for sixteen years principal of the schools in Lacrosse, Wis., and comes highly recommended.

S. LOVERN SENTENCED.

VISALIA, June 29.—S. Lovern, the convicted train-robber, was formally sentenced to life imprisonment at San Quentin by Judge Gray today. A motion for a new trial was denied. Lovern will stay in the County Jail pending an appeal to the Supreme Court.

BURNT BY ELECTRIC FLUID.

SAN FRANCISCO, June 29.—James S. Dawson, a young employee of the California Electric Light Company, while stringing wires on Market street this afternoon, became enmeshed with wires and was burned to death before assistance could reach him.

FRAWLEY'S NEW VENTURE.

SAN FRANCISCO, June 29.—A local paper says that T. D. Frawley will soon go to New York to manage the theater to be erected in the vicinity of Thirteenth street and Broadway by a syndicate recently formed.

JOHN JONES GETS FIVE YEARS.

PREScott (Ariz.) June 29.—John S. Jones, the Verde Valley rancher, convicted of rape on his step-daughter, was sentenced to five years in the Territorial prison.

BOILER EXPLOSION.

Three People Killed in the Houston
Star Office.

(BY ASSOCIATED PRESS WIRE)

HOUSTON (Tex.) June 29.—The explosion of a boiler in the office of the Evening Star at 2:40 o'clock this afternoon killed three persons and severely wounded another. The dead are: HENRY LYONS, an engraver.

EDWIN EMERY, a telegraph operator.

MISS MATTIE LOEB, a stenographer.

The seriously injured:

W. VAN VLECK, general manager of the Atlantic system of the Southern Pacific Railway.

LYONS was the engraver for the Age.

The force of the explosive blast of his leg and arm and tore his breast and stomach open. He was a married man, leaving two children. The body of the boiler was blown nearly a block, tearing out the front wall of the office of General Manager Van Vleck of the Southern Pacific. Miss Lovell, his stenographer, was working beside him and was struck by a portion of the boiler, under which she lay some time, being crushed to death.

Operator Emery had his finger on the key when a portion of the boiler struck him under the heart, killing him instantly.

General Manager Van Vleck was struck by a brick, and for a time it was feared he was fatally injured, but he will recover, though badly hurt. The explosion was caused by letting cold water into an empty boiler.

LOST TOGETHER.

Four Chival Boys and the Choir-
master Drowned.

(BY ASSOCIATED PRESS WIRE)

SHARON (Mass.) June 29.—This afternoon four choir boys and the choirmaster of St. John's Episcopal Church of Charlton were drowned in Lake Massasoit. The dead are:

FRED E. BRACKETT, 22 years old, choir-master.

THOMAS PARKER, aged 11.

HARRY LAKEER, aged 12.

WILLIAM WATKINS, aged 12.

EDWARD COOK, 12.

JOHN COOK, 12.

CIRCULATION.

Sworn Weekly Statement of the Circulation of the Los Angeles Times.

STATE OF CALIFORNIA, COUNTY OF LOS ANGELES, SS.

Personally appeared before me, H. C. OTIS, president and general manager of the Times-Mirror Company, the owner of the Times, and he deposes and says that the daily circulation records and daily presswork reports of the office show that the home edition of the Times for the week ended June 27, 1906, were as follows:

Sunday, June 21. 23,120
Monday. 22,900
Tuesday. 23,000
Wednesday. 24,850
Thursday. 25,120
Friday. 25,200
Saturday. 25,200

Total for the week. 128,380
Daily average for the week. 17,900
(Signed) H. C. OTIS.

Subscribed and sworn to before me this 27th day of June, 1906.

J. C. OLIVER,
Notary Public in and for the County of Los Angeles, State of California.

NOTE.—THE TIMES is a seven-day paper. The above aggregate, viz., 128,380 copies, is issued by us during the seven days of the past week. The daily presswork, give a daily average circulation for each week day of 30,800 copies.

THE TIMES is the only Los Angeles paper which has regularly published sworn statements of its circulation, both gross and net, weekly, monthly and yearly, during the past several years. Advertisers have the right to know the NET CIRCULATION of the medium which seeks their business, and this **THE TIMES** gives them correctly, from time to time.

THE WEATHER.

U. S. WEATHER BUREAU, Los Angeles, June 29.—At 5 a.m. the barometer registered 30.03; at 5 p.m., 30.00. Thermometer for the corresponding hours showed 60 deg. and 71 deg. Relative humidity, 5 a.m., 99 per cent.; 5 p.m., 64 per cent. Wind, 5 a.m., south, velocity, 3 miles; 5 p.m., west, velocity, 7 miles. Character of weather, 5 a.m., cloudy; 5 p.m., clear. Maximum temperature, 77 deg.; minimum temperature, 57 deg. Barometer reduced to sea level.

The Gazette

ALL ALONG THE LINE.

The Board of Supervisors has selected successors to the retiring members of the County Board of Education. The new officials are Republicans in politics, and it is to be hoped that they will reflect honor upon the party by honesty, efficiency and devotion to the cause of education.

There is a big farm in Orange county which contains something like 100,000 acres, and the proprietor of the little domain is now said to be considering the advisability of interesting capital in the building of a beet-sugar factory within its confines. It has been demonstrated that in Orange county the richest beets in the world have been raised.

Democratic wives, or the wives of husbands belonging to the Democratic party, who are members of the Woman's Parliament of Southern California, will doubtless take fresh hope at the recent utterance of Susan B. Anthony. Susan said: "The grand old Democratic party has made a great advance in even allowing the resolution regarding woman suffrage to come to a roll call." Hooray for Susan!

Axius will have to struggle along without incorporation. Two or three failures have already been recorded, but these disappointments may be but stepping-stones to better things. Incorporation in itself adds no new wealth or population. With the development of the town and adjacent country an expansion of growth will come that will enforce incorporation under more favorable conditions.

McGinnis is not satisfied with the verdict returned against him of manslaughter, and wants a new trial. And he even wants more than this—he is dissatisfied with his lawyer and seeks better talent, although he was well defended before a jury of his peers. He killed his brother-in-law, Sebastian, and says he only "jabbed" him with his knife; he now attempts to "jab" his attorney's professional life out of him. Judge Smith characterized this act as base ingratitude. A new trial might result disastrously to the red-handed defendant.

The Yuma Indians have no will contests. Probate lawyers would starve to death for the sum of fees if they practiced among the Yumas. When one of these Indians dies his entire estate is burned up, during the funeral ceremony. Even his house is consigned to the flames. No back-number wives have any chance to claim the property of the deceased. In view of the court records along this coast relating to will contests, possibly the pale faces can draw valuable lessons from this custom of the red men. The Indian idea is that by burning his estate, so far as is possible, it will accompany his spirit to Paradise.

The District Attorney has acted wisely in dismissing the charges of burglary entered against G. B. Bryant, the man supposed to have been accessory to the Truman diamond robbery. In the best case the people had against Bryant the jury stood eleven for acquittal to one for conviction. A further prosecution could have had no other result than the laying of additional burdens upon an overtaxed people. In these days of enlightenment evidence must be clear-cut and convincing; men are no longer convicted upon prejudice and suspicion. It is expensive folly to keep the judicial mills grinding out chaff. The local governments employ an army of men to guard the public and secure evidence of a convincing and convicting character in cases of crimes.

Watkins' Scott Stock.

George Biles and August Royce, two young boys, were arrested on Main street last night by Officers Ritch and Sparks on a charge of petty larceny. They are alleged to have stolen a bathing suit from the Natatorium on Broadway.

THREE FOR THE LAST GOVE.

The opportunity is here offered city patrons of the Times to read all the leading magazines and periodicals each month at trifling cost. For \$1 per month is offered the Daily and Sunday Times and all of the following list of publications:

American Wheelman, Munsey's, Argosy, Monthly, Midland Monthly, Monthly Illustrator, New England, Art de la Mode, Art Amateur, Art Interchange, North American Review, Black Cat, Bon Ton, Century, Current Literature, Popular Science Monthly, Delineator, Electrical Engineer, Electrical Engineer, Donchon's, Family Herald, Popular's Popular Monthly, Popular Science, Sportsman's Review and Bicycle News, Spiegel's Almanac, B. Nichols, Household News, Ladies' Home Journal, Standard Delineator, Standard, T. L. Williams, Lippincott's, Magazine of Art, Young Ladies' Journal, McClure's, Monthly Magazine, Youth's Companion, Musical Courier.

The Times is glad to be the medium through which these publications (it is impossible to exceed the offer to out-of-town subscribers) will be enabled to read all of the leading weekly and monthly periodicals at trifling cost.

HOW IT IS DONE.

By the payment of 25 cents extra per month, every subscriber to the Times is entitled to the privilege of reading all the entire list of publications above referred to. A sufficient number of the periodicals will be kept on hand by the Street and News Company, which is the Los Angeles Distributor, to supply the demands of subscribers who have paid the monthly subscription. Patrons of the Times who desire to accept this offer may call at the circulation department in the basement of the Times building and pay the necessary 25 cents, which will entitle them to the privilege of reading the whole list.

UP IN SMOKE.

Two Cottages on the Hills Destroyed by Fire.

Two frame cottages on Newhall street, just south of First street, were destroyed by fire last night.

Shortly before 8 o'clock flames were seen issuing from one cottage, at No. 141, South Newhall street. An alarm was at once turned in from the box at the corner of First street and Belmont avenue, and the department was prompt in responding.

With great rapidity the flames burst through the roof, and fanned by a breeze from the south, reached the roof of the cottage at No. 139, on the north. In a few minutes both cottages were blazing from top to bottom and the fire threatened to spread to the dwelling of N. L. Wheeler across the road and to the home of Attorney Fred Baker on the south.

The nearest hydrant is located at the corner of First street and Union avenue, and it was necessary to lay a line of hose 2500 feet long. Just as the hose was laid the water pumped through it, two sections burst, which caused some delay.

The buildings were dry as tinder, and despite the efforts of the firemen, they burned to the ground. The cottages at No. 141, were owned by a man named Ludwig and were unoccupied. The cottages at No. 139, were owned by C. A. Sumner, a real estate agent, of No. 134 Smith street, and was unoccupied. The loss will amount to about \$1000. Both buildings were insured.

The origin of the fire is unknown, but it is thought to be incendiary.

INHOSPITABLE FRESNO.

Vexations Delays Hinder the Valley Road.

An Associated Press dispatch from Fresno says the Right-of-way Committee for the Valley road is in an unpleasant state of mind on account of the fact that property-owners along the proposed route for the road through the city have retained attorneys to enjoin the building of the road on the streets along which a franchise has been granted. It is felt that the road will be built as contemplated, but the prospect of vexations delay is discouraging to the committee. Proposals for grading within the city limits have been annulled.

PAID THE FREE.

JEFFERSON CITY (Mo.) June 29.—L. F. Parker today filed articles of incorporation of the reorganized St. Louis and San Francisco Railroad Company with the Secretary of State and paid the constitutional fee of \$25,000. The additional tax of \$15,000 required by the act of 1892 for the endowment of the State University was also paid, under protest.

SCRAP HEAP.

A Judge's excursion of twenty-five people went East yesterday, most of whom were bound for New York, Boston and other parts of the far East. A Judge's commission will arrive in Los Angeles today.

H. B. Keeler, Santa F' agent at San Diego, was in the city yesterday.

J. B. Miller of Redondo, agent for the Southern California at that place, was in Los Angeles yesterday.

HIGHLAND:

HIGHLAND, June 29.—(Regular Correspondence.) The annual meeting of the Highland Fruit-growers Association was held today in the association packing-house. The election of a new board of directors had the effect of bringing out a large majority of the stockholders. A board of directors was elected, consisting of L. C. Waite, E. B. Winslow, Seth Marshall, James Manning, J. F. Grow, C. C. Browning and L. Q. Coy.

The secretary's report showed some cash on hand to the credit of every member. A resolution was unanimously passed favoring bona fide f.o.b. sales and the reclassification of the existing contract with the Southern California Fruit Exchange so as to permit such sales by the local association.

Considerable interest centered in the executive report of the committee sent to the relations of the Southern California Fruit Exchange to the Overland Fruit Dispatch. This is a much-mooted question among the various exchanges.

The committee filed a lengthy stenographic report in its interview with L. A. Nettler, manager of the Overland Fruit Dispatch, which, obtained from other sources, formed the basis of its conclusions. As a part of the report and embodying its views, the committee presented resolutions, setting forth the investigation had been held in which the committee's members were accorded great latitude and the fullest information upon every point discussed. A list of stockholders in the Overland Fruit Dispatch proved no fruit-grower, except A. H. Nettler, was a member of the association.

The committee declared a belief that the best interests of the exchanges of Southern California demand an unqualified statement of convictions after investigation.

It is proposed that the relations existing between these two associations are perfectly honorable and such a majority of the growers would approve if in possession of all the facts.

It was resolved that these relations are detrimental to the interests of the exchange while carrying with them the exchange of the abilities of the Overland Fruit Dispatch, and that all moneys due the exchange under the contract have been paid over in prompt and without reserve.

It was resolved to continue the exchange of the Overland Fruit Dispatch, and that the holding of the presidency of both corporations by the same person.

It was declared a dangerous policy and one that has already proven a disturbing element in many of the local associations.

The report was signed by C. L. Rogers, C. C. Browning and William Penn Rogers.

PASSING OF NIAGARA FALLS.

Chicago Choked the Ultimate Outlet of the Great Lakes.

(Popular Science Monthly.) Years ago the terrestrial movements of the Johnson barrier to the Erie basin so high that the waters of that lake reached not merely the level of Lake Michigan, but the point of turning all the water of the upper lakes into the Mississippi drainage by way of Chicago.

But the falls were then cutting through the ridge and when this was accomplished, before the change of drainage was completed, the surface of Lake Michigan was raised by many feet, and thus the falls were reestablished for some time longer.

Slowly, year by year, one sees the cataract wearing back and suggesting the time when the river will be turned into a series of rapids, and one sees the lake at last rising, and one sees the falls again, namely, the effects of the changing of the level of the earth's crust.

From computations it was found that the first 34,000 years of the life of the river, the Erie, the lake was raised by 100 feet of the Niagara River, and for only 8000 years have the waters of the upper lakes been feeding the falls.

If the terrestrial movements continue as at present, and there appears no reason to doubt it, for the continent was formerly vastly higher than now, then

GLENDALE PUGILISM

New Members of the Board of Education Elected.

Azusa Incorporation Defeated by Small Vote.

Market Ordinance Adopted by the City Council—Fish Found in the Reservoirs—Squabble Over Park Funds.

The City Council met in regular session yesterday and held long and vigorous discussions over the several matters presented for its consideration. The market ordinance was adopted after being tinkered to some extent. The Board of Health reported upon the water supply in the reservoirs. The Engineer's report was adopted, as were the others made, nearly all the sections of every one being approved.

At the Courthouse yesterday R. G. Doyle was found guilty of assaulting Claude Ely of Glendale. McComas pleaded guilty to burglary in the second degree and was sentenced to one year in San Quentin. G. B. Bryant is a free man. The charge of burglary has been dismissed, in connection with the theft of the Truman diamonds. Gauvise has pleaded guilty to grand larceny and the time of sentence has been set for July 6. The election returns of Azusa were canvassed by the Board of Supervisors yesterday. The work resulted in the defeat of incorporation, the returns being fifty-one votes in favor of incorporation and sixty-eight against the measure. J. D. Graham of Pasadena and W. T. Smith of Santa Monica have been chosen as successors to J. B. Millard and C. T. Meridith on the County Board of Education.

AT THE CITY HALL.

MARKET ORDINANCE.

ADOPTED BY THE COUNCIL AFTER SOME AMENDING.

Board of Health Reports Upon Condition of Pipes and Reservoirs. Lively Row Over Shifting the Park Funds.

At the regular meeting of the Council yesterday the Mayor was requested, on motion of Councilman Kingery, to return without executive approval the ordinance establishing the new public market.

The various recommendations of the Board of Public Works and the Sewer Committee, as previously published in The Times, were adopted.

The recommendation of the Fire Commissioners for the passage of an ordinance compelling storing of crude oil in tanks either sufficiently elevated and trenched to prevent conflagration, or placed underground, was referred to the Fire and Water Committee. The commissioners wanted better fire-fighting facilities in the oil district, of which Councilman M. P. Snyder is the author, was simply received without action.

The request of the Police Commissioners for authority to add to their substitute patrols during the summer vacation of the members of the regular force was referred to the Finance Committee.

The contractor improving Thompson street from Twenty-third to Adams was granted fifteen days to add to the time in which to complete his work.

All of the various recommendations of the Finance Committee, as previously printed, with the exception of one ordering the shifting of certain park funds, were adopted. There was opposition to the provision of the report, and upon his own request Chairman and upon the request of the committee was granted permission to withdraw the recommendation.

MOTIONS.

Motions were yesterday made in the Council as follows:

By Councilman Pessell, that a fire hydrant be placed at Maple avenue and Thirty-second street. Adopted. Also that a water pipe be laid in Main street from Twenty-seventh street between Main and San Pedro. Adopted.

By Councilman Ashman, that a four-inch water pipe be laid on Gladys avenue between Fifth and Seventh streets. Adopted. Also that a fire-alarm box be placed at Crocker and Sixth streets. Referred to the Board of Fire Commissioners.

By Councilman Munson, that the Health Officer be instructed to have Broadway between Sixth and Seventh streets swept twice a week. Referred to the Finance Committee. Also that a water pipe be laid on Seventh street near Hoover, and that the fire hydrant at Main and Pearl streets be removed. Also that the water pipe between Second and Third streets and Flower and Pearl streets be cleaned. Adopted. Also that Seventh street between Main and Spring be repaired and the stagnant pool at that point be removed. Adopted.

By Councilman Stockwell, that the Terminal Company construct a fence at the east end of the Downey-avenue bridge. Adopted. Also that the Pasadena-avenue bridge be repaired. Adopted. Also that the construction of Water street between Idell street and San Fernando road be removed. Adopted.

By Councilman Blanchard, that the sidewalks on State street between Second and Fourth be repaired. Referred to the Board of Public Works. Also that the débris be removed from the sidewalks on Bridge street. Adopted.

BIDS OPENED.

The following proposals were received, opened, examined and publicly declared:

To improve Bunker Hill avenue between First street and 323 feet north of Court street, J. L. Mansfield proposed: Grading and graveling, \$1.40 per linear foot; curb, 30 cents per linear foot; gutters, 15 cents per linear foot; sidewalk, 12 cents per linear foot; crosswalks, \$1 per linear foot.

T. A. Grant proposed: Grading and graveling, \$2.40 per linear foot; curb, 32 cents per linear foot; gutters, 15 cents per linear foot; sidewalk, 12 cents per linear foot; crosswalks, \$1 per linear foot.

M. W. Webb proposed: Grading and graveling, \$1.75 per linear foot; curb, 30 cents per linear foot; gutters, 18 cents per linear foot; sidewalk, 10 cents per linear foot; crosswalks, \$1 per linear foot.

George L. Tuttle proposed: Grading and graveling, \$1.60 per linear foot; curb, 32 cents per linear foot; gutters, 10 cents per linear foot; sidewalk, 10 cents per linear foot.

French & Reed proposed: Grading and graveling, \$2.45 per linear foot; curb, 32 cents per linear foot; gutters, 18 cents per linear foot; sidewalk, 11 cents per linear foot; crosswalks, \$1 per linear foot.

"We also find in these reservoirs the presence of small fish, which in themselves do not in any way impair the wholesomeness of the water, while the water is perfectly fit for drinking purposes."

"The Belvedere Reservoir is located near the western city limits, has been in use but one year, during which time it has been emptied and cleaned three times. The water here is not in as good condition as in the Buena Vista Reservoir, owing principally to the fact that the reservoir is new and its walls and bottom not yet thoroughly seasoned."

THE CASTLE OF KENILWORTH.

Once the Most Magnificent Residence in England, but Now a Ruin.

A little to the north of the River Avon lies the town of Kenilworth, one of the most famous spots of all Warwickshire.

It is only a straggling village, whose rows of ancient cottages are gathered around a court of timber, blackened by age, look quaint and curious enough to our modern eyes, but the interest of Kenilworth is not in the village itself; it is in the ruined castle from which the village takes its name.

It was more than 700 years ago that the most massive walls of Kenilworth were raised. Evidently it was meant

that the castle should be a stronghold, capable of withstanding any sort of attack, for a part of these ancient walls in a short space of square yard, still stand despite wind and weather.

The history of Kenilworth Castle has been full of change and excitement.

At times it was in the possession of powerful nobles whose followers were the large and terror of the whole country round about, because of their robbing and racking, with which their foraging parties plundered and destroyed.

Then again it was the property of the Kings of England, and splendid tournaments were held in its broad arena.

At last, however, it was added to the castle, till at last it came

to be a magnificent residence, the finest in all England, as well as a strong fortress. It was during the reign of Good Queen Bess, when the castle was allowed to one of her courtiers, the Earl of Leicester, that Kenilworth was at the height of its glory and splendor.

Then as the old surveyors tell us, it inclined within its walls a circuit of nineteen or twenty miles, "in a pleasant state and pleasure both for strength, state and pleasure, not being within the realm of England."

In 1575 Queen Elizabeth visited Kenilworth where she was entertained magnificently for more than two weeks.

There is a quaint account of her visit in an ancient letter written by one who was at the castle at the time.

As she drew near the outer walls, the trumpeters who stood upon the walls

"were six in number, each eight feet high, with their silver trumpets, of five foot long, sounding a note of welcome."

Then, as the Queen and her retinue, having passed through the outer gateway, approached the inner walls, a floating island appeared in the moat or lake that surrounded three acres of land.

And on this island a girl

representing the Lady of the Lake, the

trumpeters who stood upon the walls

"were six in number, each eight feet

high, with their silver trumpets, of five foot long, sounding a note of welcome."

Then, as the Queen and her

retinue, having passed through the outer gateway, approached the inner

walls, a floating island appeared in

the moat or lake that surrounded three

acres of land.

And on this island a girl

representing the Lady of the Lake, the

NEWS AND BUSINESS.

BRANCH OFFICE OF THE TIMES.

No. 6 East Colorado street. Tel. 200.

PASADENA, June 29, 1896.

McCammon's ice cream is the best.

Give him your order for the Fourth.

Patronize home industry and buy

your ice cream and candies at

McCammon's.

The lawn fete that was to be given

under the auspices of the Presbyterian

Church, has been postponed on account

of other engagements interfering.

The evening of July 1, a lawn, run

from Pasadena to Altadena, every family

will be out at 11 o'clock.

And for Pasadena at 12, midnight. If nec-

essary there will be three large cars

to leave Altadena at midnight.

Miss M. A. Ney left today for Cata-

lina with her sketching class for a

three-weeks' outing.

A concert will be given at the North

Methodist Church Tuesday evening for

the benefit of the church.

Mr. and Mrs. Con Stewart and son

will be at Catalina in a day or two,

for a three-weeks' outing.

Dr. W. B. Dilworth of Hueneme is a

visitor in Pasadena, on business con-

cerned with his profession.

Miss Orton and Miss Susie Orton left

today for the Santa Fe, New York,

and will be back in time for summer.

Mr. and Mrs. Benjamin Jarvis and

Mr. and Mrs. Morse left Pasadena to-

day for the encampment at Ventura.

Hancock Banning, W. W. Mills and

T. P. Lukens are exploring the San Ga-

briel Cañon in search of game and fish.

The remains of Henry J. Leath, who

died in North Pasadena, were taken East today by his mother.

Prof. Graham, supervising principal

of the Pasadena public schools, has

been elected a member of the County

Board of Education.

Edward Corcoran had his right hand

badly crushed in some of the machinery

at the Simon's brickyard, and was

brought to the hospital here for treat-

ment.

Atley Corcoran was again sent down

to the County jail on a charge of larceny

and another trial will be made to get

the motherless little fellow to the Whittier State School.

The examination of Louis Hegner, for

the alleged poisoning of a cow, was

called in the Recorder's Court today

and another trial will be made to get

the motherless little fellow to the Whittier State School.

The tent of William Stevenson, on

Eleventh street was entered Saturday

night by some feloniously inclined per-

son and thoroughly ransacked.

The family is safe at Catalina and has re-

moved its valuables to a place of safety

before departure.

E. E. Jones and family returned to-

day from a stay of two weeks at

Avalon. Mr. Jones reports the catch of

a thirty-four pounder on Saturday.

He is using cold cream to restore

the pristine beauty of such fabri-

cials as he has left.

The Young Men's Christian Associa-

tion, assisted by the various Young

People's Christian Endeavor societies

of Pasadena, will give a musical and

dramatic program at the Pacific

depot grounds and in the rooms

above the depots quarters, Friday even-

ing.

Some vandal amused himself Satur-

day night by digging up a valuable

piece of property of Mr. Greene, on

Orange Grove, seven feet deep, and

it through the street and casting it into a

hollow. The Marshal was notified of

the occurrence and is looking for the per-

petrator of the deed.

Bicycle Race.

The races of the Crown City Cycle

Club on Tuesday are attracting consider-

able attention, and the entries pre-

serve some clever riding. In the one-

mile race Rowan, Burnham, An-

derson, Thompson and Cook are listed.

In the one mile open Jenkins, Harmon,

Hill, Bennett, Cowan, Bell, Cor., etc., etc., etc., etc., etc., etc., etc., etc.,

etc., etc., etc., etc., etc., etc., etc., etc., etc.,

etc., etc., etc., etc., etc., etc., etc., etc., etc.,

GOLEHERN CALIFORNIA NEWS

ORANGE COUNTY.

THERE IS TROUBLE BREWING IN THE PEAT LANDS.

Celery-growers Give Employment to Chinese Workmen—A Flurry at the County Jail Because a Man Got Hungry—Baldwin's Case.

SANTA ANA, June 29.—(Regular Correspondence.) Prominent residents of the Westminster district who were interviewed yesterday by a Times correspondent in reference to the agitation against Chinese labor in the celery fields, very plainly intimated that summary action will be taken to expel the Celestials, unless this result can be brought about by other means. They declare that white men are willing to accept employment for the same wages paid the Chinamen, and maintain that the white men may content to let the work remain in the celery fields. At a meeting held June 24 their position in the matter was explicitly set forth in a resolution drawn up and placed in the hands of a committee to be present at Mr. Smelser, upon whose ranch the Chinese are employed.

The resolution declares it is detrimental to the peace, prosperity and welfare of the nation to let the Chinese laborers that Chinese be employed in the production of celery and other farm products, inasmuch as many of the laborers who have depended upon employment in the celery fields are thrown out of employment, and, owing to the present depression stand sorely in need of the money which is now passing into the hands of the Orientals. It was agreed that a committee be appointed to interview Mr. Smelser, a present employee of Chinese, for the purpose of persuading him to discharge the Chinamen and to employ deserving American citizens instead. Pundit's case was resolved by Mr. Smelser to be asked in the name of the deserving unemployed of the vicinity to discharge the unwelcome Chinese now in his employ.

A FLURRY AT THE JAIL.

There was a flurry at the County Jail this morning between the hours of 7 and 8 o'clock, for a brief time created considerable excitement on the streets. The report gained circulation that some one had been shot in the jail and that the bullet had hit the Sheriff. It was ascertained that only one pistol shot had been fired, and that one was by "Bob" Moffitt, who has been acting as night watch in the jail since the inception of so many hard characters.

Bob had been acting as night watch in the jail for some time. He was hungry. It was the custom to relieve Mr. Moffitt at 6:30 o'clock each morning, but somehow or other he was forgotten this morning and a hunger became acute. He had no place to go to for food, but Marvin hung to the rod like a Trojan. The battle lasted exactly an hour, and all the anchor lines and canvas on which were used in the engagement, when the stalwart warden, pouring over his brow, landed that worn-out fish in the stern of the boat, and his comrades heaved a sigh of relief, boarded the launch and directed the engineer to steam straight for Avalon.

Dr. and Mrs. John McLeish of Chihuahua, Mex., left this morning, after spending two weeks at the Metropole, to make the extended tour of the country. They go to San Francisco and will go back to Mexico about July 15.

V. B. Buck, wife and two sons of Kansas City left this morning after a brief stay. They will proceed North and then to Alaska.

E. Petrie Hoyle and family left this morning, after spending several weeks at the Owl's Nest.

Mr. and Mrs. C. F. Rinach, a bride and groom from San Bernardino are at the Glenmore. J. P. Martin is also a recent arrival.

The big whale which has been anchored at Silver Calfon for the season will arrive for the next Wednesday.

Jack McCrea is here putting the family bungalow in shape for July 1, wife and two sons, where his daughter will come over to take possession.

The power fishing boat Alpha caught over three tons of mackerel at 2 o'clock today.

FROM CATALINA.

AVALON (Catalina Island,) June 29.—(Special to the Times by Homing-pigeon "Hurricane" of the Catalina Carrier-pigeon Service.) The guests at the Metropole were delightfully entertained last evening by an impromptu musicals given in the parlors of the hotel and participated in by several musicians who chanced to be staying there and who contributed of their talent to make the evening a success. Sunday evening musicals were given at season with almost unbroken regularity and were deservedly popular. It is altogether likely that the happy custom will be resumed this season. Last evening Miss Marcia Patrick of Chicago, who is the program with a delightful piano solo, was followed by Miss Grace Jenkins of Lincoln, Ill., who gave a violin solo, Prof. Frank Polley playing the piano accompaniment. The programme was not entirely the same as the previous night, the Banning of St. Paul receiving a reception which won such enthusiastic applause that she was compelled to respond with a second, which met with an even greater demonstration by the audience. "Deborah," a solo in trim, was the other appropriate to the approaching anniversary of Independence day, was especially pleasing.

Mr. J. McLeish of Chihuahua, Mex., that charming Mexican selection, "Over the Waves," with its rhythmic waltz measure, and the Mexican national hymn—a peculiarly grand, majestic piece of music. Later in the evening Mrs. McLeish sang a solo of selections, one of them being James Whitcomb Riley's pathetic "There, Little Girl, Don't Cry."

R. Higgins departed this morning for San Francisco by way of Los Angeles, wearing a broad and beaming smile. The cause of this happy frame of mind was traceable to an enormous tuna strung up on the beach which Mr. Higgins captured yesterday after a fierce battle. In company with Messrs. Arthur and Stewart of Pasadena, Mr. Higgins sailed forth yesterday morning with grim determination in his eye. Boarding the Flying Fish, the sportsmen proceeded to Church Rock, the favorite fishing ground of all Avalon, and there they settled all themselves for the day. When this 100-pound tuna tackled the hook intended for yellowtail, and the light-colored fish missed her with a velocity that indicated big game, the excited sportsman wildly shrieked, "A whale, boys, I've got a whale, sure." With a rush the boat was hauled in through the vasty deep toward San Pedro, but Marvin hung to the rod like a Trojan. The battle lasted exactly an hour, and all the anchor lines and canvas on which were used in the engagement, when the stalwart warden, pouring over his brow, landed that worn-out fish in the stern of the boat, and his comrades heaved a sigh of relief, boarded the launch and directed the engineer to steam straight for Avalon.

SAN BERNARDINO COUNTY.

CITY MARSHAL VAN DOREN HAS A LIBEL SUIT.

Thought He Was Referred to in a Police Station Item—He Was the Victim of Another Who Used His Title.

SAN BERNARDINO, June 29.—(Regular Correspondence.) One of the most remarkable libel suits ever brought to trial in this country was heard in court here yesterday in the case of City Marshal Van Doren of San Bernardino against the Los Angeles Times. The suit is the outgrowth of a local news article printed in the Times of October 16, 1895. In that article was related the experience of a man who, in making the rounds of the disreputable houses of Los Angeles, was robbed and cinched by a female whose society he had sought. The man told his troubles to the police, to whom he said he was the City Marshal of San Bernardino, and, consequently, deserved especial official courtesy. The man, however, after the matter had been reported to the police and officers had taken action to recover property which the fair cyprin had taken from the stranger, the Times related the facts as they had been told by the victim at the Police Station.

The man, it is true, was a bit frank enough in acknowledging the pains he had taken in the disreputable episode, he deliberately lied as to his identity, though that fact was not discovered until the eve of the day when the story was published. That is why the Times of October 16, 1895, said that a man claiming to be a city official of San Bernardino had gotten into trouble with the police. The man, however, was City Marshal of San Bernardino, and on that authority the Times so referred to him.

During the following day the real identity of the man was disclosed. He was in reality W. F. Boreham, a constable of Victor, San Bernardino county, who was masquerading as the City Marshal of San Bernardino. No doubt he was an expert at casting a story, for he did not even know the name of the story, but the next day's development showed, as another local news item explained, it was Boreham of Victor, and not Van Doren of San Bernardino, who got the rap.

As soon as the real facts were learned the Times hastened to set matters right, and put the credit where it rightly belonged, and exonerated the City Marshal, who had not hitherto been mentioned. Tommy pointed to the fact that now the \$100,000 water bonds have been voted, two blades of grass will hereafter grow where one or none grew before. Coronado Hotel was illuminated from dome to cellar in honor of its manager. It was a touch of touching ovation.

A TOUCHING OVATION.

Upon the return of E. S. Babcock to his home at Coronado, after the water bond election, of which he was the chief boomer, Mr. Babcock was surrounded by beautiful maidens, who crowded him with flowers and small bouquets. Which orated. Tommy pointed to the fact that now the \$100,000 water bonds will be voted, two blades of grass will hereafter grow where one or none grew before. Coronado Hotel was illuminated from dome to cellar in honor of its manager. It was a touch of touching ovation.

SAN DIEGO BREVITIES.

The water bonds were carried on Saturday by a vote, as at present reported unofficially, of 2,541 votes for the bonds and 1,135 against them. This carries the bonds by a narrow margin of fifty-seven votes more than the necessary two-thirds vote, and not by a margin of 171, as has been incorrectly reported.

The announcement is made that work will begin on the Morena reservoir, which is wanted to supply water under the new bond scheme, and is also to supply the Southern California Mountain Water Company does not yet own the site. Bids for building the \$1,500,000 water system, which the city seeks, have not yet been announced. If a responsible bidder can do the work for \$1,000,000 many citizens will be pleased.

SPENCER DIVORCE CASE.

The case of Mrs. G. Spencer vs. Samuel G. Spencer for divorce, which has been grinding for some time, was finally settled today by granting Mrs. Spencer an absolute divorce, giving her the custody of the child and awarding her permanent alimony amounting to \$35 per month.

FROM LOMPOC.

One of the members of the Chicago syndicate which recently bought the Cedros Island mines is expected to arrive this week.

Gen. F. Richardson, manager of the San Fernando Company, is about returning to Lower California.

Ex-United States District Attorney, Col. Garter of San Francisco, is here on business.

On the Point Loma Peninsula, there are now 16,000 lemon trees.

Mrs. Edwin Diment, aged 66, died on June 22.

Mrs. Echenique of Otay is shearing 6,000 sheep.

Nester is about to have a new Methodist Episcopal church building.

Clement Hull and Miss Rosalie Wright of England were married at Fallbrook recently.

The pack crop is backward. The average yield is 40 percent.

A copy of the Times containing the alleged libelous article, and a sworn statement by Harry Chandler, circulation of the paper at that date, were in evidence, both parties consenting.

The first witness for the prosecution was the plaintiff himself, who took the stand and gravely testified that he was City Marshal of San Bernardino during the time the article in question was published.

A question for the defense was sustained in consequence of the publication was objected to, and the objection was sustained. The question as to whether it is his duty to sustain and defend the plaintiff was sustained.

The jury was then asked to sustain the objection, and after some discussion the objection was sustained.

Plaintiff's counsel took an exception, and being baffled in further attempt to get in evidence bearing on this point, called the witness over to the defense, who dismissed him without questioning.

The attempt to extract any material evidence from the next three witnesses for the prosecution proved a fizzle. The information given after the first by objections made by the defense was sustained by the court. Plaintiff's counsel then renewed their request for leave to amend the complaint so as to read that many readers of The Times understood and believed that the article referred to and meant plaintiff was sustained. The question as to whether it is his duty to sustain and defend the plaintiff was sustained.

The jury was then asked to sustain the objection, and after some discussion the objection was sustained.

Plaintiff's counsel took an exception, and being baffled in further attempt to get in evidence bearing on this point, called the witness over to the defense, who dismissed him without questioning.

Plaintiff's counsel then renewed their request for leave to amend the complaint so as to read that many readers of The Times understood and believed that the article referred to and meant plaintiff was sustained.

The jury was then asked to sustain the objection, and after some discussion the objection was sustained.

Plaintiff's counsel took an exception, and being baffled in further attempt to get in evidence bearing on this point, called the witness over to the defense, who dismissed him without questioning.

The attempt to extract any material evidence from the next three witnesses for the prosecution proved a fizzle. The information given after the first by objections made by the defense was sustained by the court. Plaintiff's counsel then renewed their request for leave to amend the complaint so as to read that many readers of The Times understood and believed that the article referred to and meant plaintiff was sustained.

The jury was then asked to sustain the objection, and after some discussion the objection was sustained.

Kavanaugh of Richmond, Va.; L. Haney of New York City, F. W. Ains of Portland, Ore., and J. J. Bynes of El Paso, are at the Nadeau.

BOARD OF EDUCATION.

The School Board decided at its meeting last evening to continue for the present the use of the music books and charts which have been employed in the schools during the past four years. In accordance with the notice published by the secretary, four bids had been sent in by music firms, but the discussion which followed the opening of the bids developed the fact that

Royal Baking Powder

ABSOLUTELY PURE

the majority of the members of the board were opposed to any immediate change. The normal system now in use, with even coefficients, satisfied them very good results. He did not think it necessary to change the musical text books. As the bidders had not complied exactly with the terms of the notice, he declined to reject all bids and continue for the present the use of the normal system, although it was not formally readopted.

Upon motion of Director Pitman it was resolved that the members of the music class in the High School be duly graduated.

Director Kennedy reported that the proposed purchase of ground adjoining the school grounds which would not be used for school purposes but for the North Western Improvement Association had offered to grade and improve the school grounds and the committee recommended that they be permitted to do this.

This report aroused considerable discussion, for some of the directors believed this an unusually favorable opportunity to acquire ground which the school should have. But the cry of "pecuniary" was raised, and the proposed purchase was voted down.

Upon the proposition to grade the school grounds, Director Fulton endeavored to incorporate a stipulation that not part of the work should be done by chain-gang labor. He demanded that the chain-gang be relieved of barbarism and said he was opposed to its use by the school board. His amendment met with no support, however, and the report of the committee was adopted.

WOODBURY BUSINESS COLLEGE.

Graduating Exercises at the Los Angeles Theater.

The Los Angeles Theater was well filled last evening at the graduating exercises of the Woodbury Business College. The stage presented a very attractive appearance, the edge being banked with flowers, pillars, etc., on either side were grouped palms and pink hydrangeas. Above the class was suspended a huge star, bearing the figures '96 in the center. Against the scenery in the rear was draped a large American flag.

The programme was enthusiastically received, each musical number being encored and the speeches warmly applauded. Prof. A. J. Stamm's School Orchestra opened the programme with music, which was followed by an instrumental piece, "The Rose." Claude L. Friel sang a solo and Miss Ethel Ayers delivered a graceful solo. C. S. Delano's Guitar, Banjo and Mandolin Club rendered several selections. Misses Adeline Bell and H. S. Williams sang delightful solos and closed the evening with a duet.

Miss Lavinia M. Hendey, with a charming little speech, presented the diploma with the handsome silver combs, the colored pearls, white lace, yellow, and N. G. Felker received the gift for the college. The Misses Bell and Prof. Stamm played a march, for piano and violin, which was followed by a patriotic piece by Hon. Will A. Harris, in which he reminded the graduates that they were to form part of public opinion and to create it, for the United States government is the public opinion. He urged them to remember their constitutional and laws of this country, and shewed them their duty. He also reminded them of the opportunities offered to them, who were just entering the ceaseless activities of life, and the necessity for perseverance and earnest work.

The diplomas were presented by George A. Hough and the valedictor was delivered by Morton A. Miller. There were twenty-three graduates from the commercial course, twenty from the shorthand department and two from the school of telegraphy.

Both Dead.

(Judge) "Hawkins received a notice from the city the other day to come to Los Angeles to get a new license for his dog, as the old permit had expired. What did he do?"

"He wrote back that so had the dog."
